

Missouri Country Adventures

2002 Agritourism Guide

Welcome to the 2002 Missouri Agritourism Directory. On these pages you will find a wealth of information on one of Missouri's most valuable assets. Agriculture has always been the heart of the social values that make Missouri such a great place to live. In fact, at one time most Missourians were raised on farms or in small rural communities. Although most citizens now have a lifestyle outside the agriculture industry, all Missourians can enjoy the experience and benefits of farm life through agritourism.

Agritourism can be defined as rural, farm-based destinations designed for the enjoyment and education of the public. Many Missouri farm businesses have opened their gates to visitors, proudly welcoming the public to share the experience. Families can enjoy a variety of quality time together in rural Missouri, whether choosing the perfect Christmas tree, spending an afternoon fishing, or enjoying an educational tour. Other options include staying at a farm bed and breakfast, navigating a corn maze, or taking in some of the many local fairs and festivals.

I encourage you to "Come out to the Country" and experience the fun, excitement and hospitality that can only be found in rural Missouri.
